</table>

1. The instructor was prepared for class and presented the material in an organized manner.
2. The instructor responded effectively to student comments and questions.
3. The instructor generated interest in the course material.
4. The instructor had a positive attitude toward assisting all students in understanding course material.
5. The instructor assigned grades fairly.
7. I learned a great deal in this course.
8. I had a strong prior interest in the subject matter and wanted to take this course.
9. I rate the teaching effectiveness of the instructor as.
10. I rate the overall quality of the course as.
What do you like best about this course?:

"There is something in it for everyone"

"We had some interesting group discussions."

"The small size of this class, and the fact that it was in a conference room setting, made everything feel personal. I felt that the professor was there for us every class making us participate in a positive way."

"I liked how it was discussion based. Gave those who wanted to participate all the chances they could ask for."

"I liked that it had many students as well as a professor who were generally interested in the material."

"the book choices"

"The size"

If you were teaching this course, what would you do differently?:

"End early"

"Be more clear about what is wanted in assignments and papers."

"Nothing"

"Sometimes our discussions, though informative, went a little too far from the topic(s) of the reading. I would try to keep it just a little bit more structured."

"For the first half of the semester, the professor would lecture for three hours with little discussion. It made the class difficult to pay attention to."

"I would probably talk a little more about policy and less abstract topics"

In what ways, if any, has this course or the instructor encouraged your intellectual growth and progress?:

"It helped me understand an ecological view point on markets"

"Had some interesting ideas for analyzing problems and situations."

"Professor Popper constantly asks us to think deeper, think in alternate ways, and really look into the readings. I have become a much more analytic when I read."

"Rather than three large assignments, it would be nice to have many (weekly?) briefer assignments that would focus on very specific topics."

Other comments or suggestions:

"I didn't put strongly agree for everything just to rush through the survey. I truly mean the Professor and the class are outstanding. I know I don't have to say this, but Popper is an amazing asset to the Rutgers faculty. I would recommend him to everyone who goes to Rutgers. I am a graduating senior, and I was lucky to have him my last semester. I may have learned the most from him and in the most inviting way out of any professor or class I have had at Rutgers. Makes me wish I took the class freshman year, I may have changed my major and what I decided to study based off this class alone."

"Definitely focus on teaching like you did the second half of the semester."

"does not need to be 3 hrs long. professor could have cut out nonsense and made it 2 hrs long"
